

# Construction Site Visit

---

- **Content :-**

1. Introduction
2. Objective
3. Technical Observation
4. Conclusion

- **Introduction:-**

A site visit is held on 24<sup>th</sup> of Aug. 2023 . The project for this site visit is a Hotel project which is located at Vadhegao road, Sangola. Based on the information, the owner of this project is Shastri. The Engineer is Mr. Deshmukh sir.

On that day, we took college bus to the site visit. There were 20 students and 3 faculty's to the site visit. The site engineer explained to us about the construction project and materials used in construction.

- **Objectives:-**

- ❖ To understand the basics of the construction process.
- ❖ To explain the construction of building and the scientific principle that underpins the design and construction.
- ❖ To understand how the construction process goes on.
- ❖ How to read plan and understand the plan.

- Technical Observation:-

**Process of Constructing -**

- ❖ Site Survey & Site Clearance
- ❖ Excavation
- ❖ Formwork to pad footing
- ❖ Placement of reinforcement bars
- ❖ Filling of concrete
- ❖ Removal of formwork

- **Conclusion:-**

From this site visit, We understand more about construction, We understand the basic process and practical aspect of construction techniques on site. Besides, it is important to know about the rules, site investigation, job scope of the professional workers. Also, We gain the experience staying outdoors under the hot weather to do what we are going to do in future.

Lastly, I think this site visit benefits a lot on our subjects and for our future as it prepare to overcome many upcoming problems. We really appreciated for the chance to have site visit for the exposure.

# Thank You!
