About Society and Institute

Fabtech Education Society's (FES) Fabtech Technical Campus College of Engineering & Research (FTCCOER) is a vibrant and futuristic Engineering Campus. It is established with the objective of empowering the urban as well as rural students through quality education in Engineering and Technology. Fabtech Technical Campus College of Engineering & Research is the Dream Project of Late Hon. Shri Birasaheb A. Rupnar, an eminent industrialist, a technocrat and a visionary par excellence. It is said that if one becomes successful then one has to give it back to society and Fabtech Technical Campus' COER is one such great gift in terms of knowledge from its Founder Father the Great Visionary- Late Hon. Shri Birasaheb A. Rupnar. The institute is affiliated to Dr. Babasaheb Ambedkar Technological University (DBATU), Lonere, recognized by All India Council for Technical Education (AICTE), New Delhi; accredited by the National Assessment and Accreditation Council (NAAC), Bengaluru with A Grade and ISO 9001:2005 certified. The institute runs 6 UG Programmes: Artificial Intelligence and Data Science, Computer Engineering, Electronics & Telecommunication Engineering, Electrical Engineering and Mechanical Engineering, Civil Engineering.

About Faculty Development Program

A Faculty Development Program (FDP) on "Empowering Innovation : Research Methodology and IPR" (EIRM & IPR-2024) typically aims to enhance the knowledge and skills of faculty members in the areas of research methodology, innovation, and Intellectual Property Rights (IPR). Such program focuses on equipping educators with the tools and insights they need to foster a research-oriented academic environment, improve the quality of research, and understand the importance of IPR in academic and industrial contexts.

About Department

The department of Civil Engineering was established in the year 2011 with total sanctioned intake of 60 students for U.G. Program. The department will introduce a PG in Geotechnical Engineering in the academic year 2025-26.

Vision

To be a fountainhead in creation of world class professional, who have acquired their skills under the guidance of able faculties in an environment of competence and research orientation with state-of-the art infrastructure.

Mission

To offer broad education form certification courses to doctoral program mean, collaborate with academia & industries to achieve excellence in technical education and contribute for upliftment of society by producing leaders of learners and learners of leaders

Salient Features

- Well-equipped laboratories with advanced analytical instruments.
- Dedicated faculty members with experience from industry and research.
- Innovative teaching learning methodology with continuous assessment of student's performance.
- Computational and simulation software available to solve problems numerically.
- Every year students excel in GATE and Competitive exams.
- All round development of students through seminars, project, training, guest lecture & site visits.

Course Outcomes

- Development of a stronger research culture within academic institutions that promotes collaboration and innovation.
- To navigate the complexities of protecting research outputs through a deeper understanding of IPR.
- To gain a competitive edge in academia and industry by demonstrating proficiency in IPR.
- Develop a novel research hypothesis or methodology that pushes the boundaries of current understanding.
