OBJECTIVE

To contribute meaningfully to the academic and professional development of students by leveraging my diverse expertise in English, communication skills, educational technology, and AI-driven learning innovation. I aim to bridge classroom theory with industry practice through experiential learning, activity-based instruction, and purpose-driven mentoring, particularly in institutions like DBATU where I've previously served with impact.

PROFESSIONAL SUMMARY

An enthusiastic and future-ready educator with over **13 years of rich experience** in teaching, training, and EdTech innovation. A **NET-qualified postgraduate in English Literature** (qualified thrice), I bring together **7 years of impactful teaching at Dr. Babasaheb Ambedkar Technological University (DBATU)** and **4+ years of industry experience** working on **AI-based educational platforms**.

I've trained over **55,000+ college students** and **7,000+ corporate professionals** across India, delivered **750+ CSR training sessions** (notably with Naandi Foundation under the Mahindra CSR initiative), and spoken at **17+ plenary events**. Currently heading the **TLS Power Skills Division** at TWJ Learning Solutions, I manage a team of 27 trainers and lead EdTech projects like:

- **TheLearnStreet.com** – AI-based video course creation for educators
- **GetSetCareer.com** – AI-driven resume, interview, and career prep tools
- **Zeetlo.com** – Personalized microlearning and AI-generated eBooks

Additionally, I've developed **7+ AI chatbots** focused on language learning, communication coaching, and productivity enhancement for students and professionals. I envision building

future-ready learners and educators by integrating AI, soft skills, and multilingual education into scalable learning ecosystems.

TEACHING PHILOSOPHY

I believe that **learning should be active, relevant, and transformative**. My teaching approach is grounded in the philosophy of "**learning by doing**", where students engage through **activity-based sessions, real-world simulations, language labs, role-plays, and microlearning modules**. I design my sessions to foster curiosity, collaboration, and communication — the essential skills of the modern world.

Deeply committed to **experiential learning**, I integrate **technology, storytelling, bilingual scaffolding, and reflective practices** to ensure every learner feels empowered and included. I continually evolve my methods, drawing from my exposure to corporate training, AI tools, and cross-disciplinary collaboration to create classrooms that are not only educational but **engaging, ethical, and employability-focused**.

TEACHING EXPERIENCE

➤ Assistant Professor – English & Soft Skills

Dr. Babasaheb Ambedkar Technological University, Lonere

June 2015 – May 2022

Served as a core faculty member for English and communication skills, teaching undergraduate engineering students through innovative, learner-centered methods. Championed experiential learning strategies in language instruction to improve confidence, fluency, and real-world communication competence.

Key Responsibilities & Achievements:

- **Taught English, Business Communication, and Soft Skills** to students from diverse engineering disciplines
- **Conducted language lab sessions using activity-based pedagogy**, role-plays, debates, mock interviews, group discussions, and listening labs
- Introduced **task-based learning modules** focused on real-life communication tasks: presentations, professional emails, resume building
- Designed **customized training modules** for low-confidence and first-generation learners using bilingual and visual aids
- Encouraged peer feedback, reflective learning, and public speaking confidence through regular performance-based assessments
- Organized **interdepartmental communication skill competitions** to drive engagement and collaborative learning
- Mentored students in **academic writing, placement preparation, and personal development**
- Aligned teaching with **outcome-based education (OBE)** and **NEP 2020** communication skill frameworks

- Collaborated with other departments to integrate **soft skills into core engineering education**

Note: Session plans, lab module examples, and experiential learning activity sheets available on request.

➤ **Corporate Trainer & Project Lead**

TWJ Learning Solutions (TLS) | Pune, India

June 2021 – Present

Currently leading the **TLS Power Skills Division**, overseeing the design and delivery of corporate and campus training programs across India. Responsible for training quality, team leadership, project innovation, and AI-integrated learning platforms.

Key Responsibilities & Achievements:

Corporate & Campus Training Leadership

- Head the **TLS Power Skills Division**, managing both **corporate training** (for mid & senior-level managers and blue-collar workers) and **campus-to-corporate programs** (for colleges across India)
- Lead a team of **27 professional trainers**; assign training modules, monitor delivery quality, and conduct **Train-the-Trainer (TTT)** workshops
- Personally delivered **high-impact training sessions** on communication skills, leadership, time management, and team collaboration

EdTech Project Leadership & AI Integration

- Serve as **project lead and content strategist** for three AI-driven educational platforms:
 - **TheLearnStreet.com**: Generative AI platform for educators to create video-based courses using avatars and AI voiceovers
 - **GetSetCareer.com**: AI-enabled platform offering ATS-friendly resumes, mock interview practice, and GD simulation tools
 - **Zeetlo.com**: Microlearning and personalized eBook platform using AI-generated content tailored to learner goals and psychometrics
- Develop and supervise **content creation, AI model training, chatbot design, and learner experience workflows** for these platforms

Innovation & Strategy

- Contributed to the creation of **AI chatbots for education**, including English fluency bots, grammar coaches, and productivity assistants
- Designed **customized learning journeys** for different learner personas – students, professionals, educators
- Regularly conduct **internal innovation labs**, prototyping tools and features to improve learning outcomes.

CORPORATE TRAINING EXPERIENCE

Freelance / Contract | India (2015 – Present)

Delivered over **50+ corporate training assignments** across various Indian SMEs and mid-sized organizations (employee strength: 50–300). Sessions were tailored for **mid & senior-level managers, blue-collar employees, floor supervisors, and junior executives**, focusing on communication, performance, and professional growth.

Key Highlights:

- Delivered trainings in both **offline** and **online** modes across 10+ cities in India
- Trained **7,800+ employees** across **manufacturing, IT, logistics, warehousing, and service sectors**
- Designed need-based modules in English, Hindi, and Marathi for diverse workplace roles

Major Topics Covered:
