

3.2.2 Number of workshops/seminars/conferences including on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship conducted during the last five year.

Clarification Asked: - Pl note: Only activities with a bearing on Research Methodology, Intellectual Property Rights (IPR), entrepreneurship and skills development to be considered here. Pl submit 1. Brochure/Geo tagged Photograph with date and captions; title of the workshops / seminars conducted. 2. Provide Link to the detailed report for each program as in the template."

Response: -

1. Reports of Research Methodology, Intellectual Property Rights (IPR), entrepreneurship and skills development activities are attached. (Appendix-I)

Activity Report

Academic Year	2018-19
Name of the Activity	Seminar on IPR
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	A seminar on Intellectual Property Rights (IPR) is a gathering that focuses on the protection and management of intellectual property, including patents, copyrights, trademarks, and trade secrets. Participants discuss the importance of IPR in fostering innovation, economic growth, and the legal framework surrounding it. These seminars aim to educate and inform individuals and businesses about the significance of safeguarding their intellectual assets.

Activity Report	
Academic Year	2019-20
Name of the Activity	Session on How to create Google Scholars profile
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	In the session on creating a Google Scholar profile, participants learned how to: Set up a Google Scholar account: The session covered the step-by-step process of creating a Google Scholar profile, including the importance of using an academic email address and adding affiliations. Manage publication entries: Participants were guided on how to manually add, edit, and organize their publications on the profile, ensuring accurate and comprehensive representation of their academic work. Maximize visibility and impact: The session emphasized optimizing the profile by adding keywords, links to personal webpages, and tracking citations, helping researchers increase their visibility and impact in the academic community.

Activity Report	
Academic Year	2021-22
Name of the Activity	Session on Importance of H-Index and Impact factor for the Research Papers
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	In a session highlighting the significance of the H-Index and Impact Factor for research papers: The H-Index serves as a valuable metric for assessing an author's research impact by considering both the number and impact of their publications, providing a more comprehensive view of their scholarly contributions. The Impact Factor, on the other hand, evaluates the prestige and influence of a journal in which a research paper is published, helping researchers choose the most appropriate venues for their work. Understanding and utilizing these metrics is crucial for researchers to enhance their academic reputation and make informed decisions about where to publish their research to maximize its reach and impact.

Activity Report	
Academic Year	2021-22
Name of the Activity	Session on Importance of Patents and their benefits
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	A session on the importance of patents highlights their role in protecting intellectual property and fostering innovation. Patents grant exclusive rights to inventors, incentivizing them to create and share their ideas. They contribute to economic growth by promoting research and development while allowing inventors to profit from their inventions, ultimately benefiting society as a whole.

Activity Report	
Academic Year	2021-22
Name of the Activity	Webinar on IPR
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	The webinar on Intellectual Property Rights (IPR) provided valuable insights into protecting and managing intellectual property in today's digital age. Key takeaways included the importance of understanding different types of IP, such as patents, trademarks, and copyrights, the significance of IP in innovation and business growth, and strategies for safeguarding IP assets from infringement and theft. Experts emphasized the need for businesses and creators to stay informed and proactive in their IPR efforts to ensure long-term success.

Activity Report	
Academic Year	2021-22
Name of the Activity	Session on UGC Approved List of Journals
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	In this session, participants discussed the significance of journals being included on the UGC Approved List. They explored the criteria and evaluation process for journal inclusion, emphasizing the importance of quality research dissemination. The session also addressed the implications for researchers, universities, and academic institutions when publishing in UGC Approved journals for career advancement and recognition.

Activity Report	
Academic Year	2021-22
Name of the Activity	Workshop on the VIDWAN ID concept
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	The Workshop on the VIDWAN ID concept focused on discussing and developing the VIDWAN ID, an initiative aimed at providing unique and verifiable identities for scholars and researchers. Participants explored the potential benefits of this concept for academic and research communities. The workshop aimed to address the challenges and implementation strategies associated with VIDWAN ID to enhance the recognition and collaboration among scholars.

Activity Report	
Academic Year	2022-23
Name of the Activity	Session on Book Publication Process
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	The session on book publication process covered key aspects of getting a book from manuscript to publication. It discussed manuscript preparation, the importance of editing and proofreading, and various publishing options such traditional publishing, self-publishing, and hybrid publishing. Participants also learned about the role of literary agents and the significance of book marketing in the publishing journey.

Activity Report	
Academic Year	2022-23
Name of the Activity	Workshop on Research Paper Writing in UGC Care List
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	A Workshop on Research Paper Writing in UGC Care List is an educational event designed to help researchers and academicians improve their skills in crafting research papers. This workshop focuses on the specific requirements and guidelines set by the University Grants Commission (UGC) for inclusion in the UGC Care List. Participants learn effective strategies for structuring, writing, and formatting research papers to meet the rigorous standards necessary for UGC Care List inclusion. It provides valuable insights and practical guidance to enhance the quality of research output and increase the chances of research papers being recognized and indexed by the UGC.

Activity Report	
Academic Year	2022-23
Name of the Activity	Session on Importance of H-Index and Impact factor for the Research Papers
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	In a session emphasizing the significance of the H-Index and Impact Factor in research papers, participants learned about key bibliometric measures used to assess scholarly impact. The H-Index gauges an author's productivity and influence by considering both the number of publications and their citations. Impact Factor, on the other hand, measures the prestige of a journal in which a paper is published, reflecting its potential reach and influence within the academic community. Understanding and leveraging these metrics can help researchers navigate the academic landscape and make informed decisions about where to publish and how to assess the impact of their work.

Activity Report	
Academic Year	2022-23
Name of the Activity	Session on Importance of Patents and their benefits
Beneficiaries	Students- All Faculty- All
Venue	Fabtech Technical Campus, College of Engineering and Research, Sangola
Brief Report	A session on the importance of patents highlighted their pivotal role in protecting intellectual property, fostering innovation, and stimulating economic growth. Patents provide inventors with exclusive rights to their creations, incentivizing investment in research and development. By safeguarding ideas and encouraging their disclosure, patents fuel technological advancement and facilitate collaboration in various industries.
